# nvim-lammps-syntax

Syntax highlighting and completion for LAMMPS input scripts in Neovim.

## Installation

With lazy.nvim:

```lua
{
  "c7im/nvim-lammps-syntax",
  config = function()
    -- nothing special required
  end
}
```

With packer.nvim:

```lua
use "c7im/nvim-lammps-syntax"
```

## Features

- Syntax highlighting (`syntax/lammps.vim`)
- File detection (`*.in`, `*.lmp` → `lammps`)
- Autocompletion source for `nvim-cmp`

## License
